To Our Patients:

We have some changes to share with you that are happening here at MVPediatrics with our Behavioral Health team.

We will be welcoming Lauren Godes, LICSW, to our MVP family. Lauren has over a decade of experience in the behavioral health field. She received her Masters' degree from Simmons College and will be starting full-time on May 30th. She will be available to see patients Monday through Friday.

We are happy to have Liz Disterhoft, LICSW, who welcomed her second baby earlier this year, returning from maternity leave at the end of May. Liz will be seeing patients on Mondays, Fridays, and Saturdays.

Sonia Erlich, LMHC, has been offered an opportunity to work on a grant-funded project at Boston Medical Center training others how to integrate behavioral health into primary care; and will be reducing her schedule here to Mondays and Thursdays.

Kristen Cowles, LICSW, will continue to be here each Tuesday.

Debby Kerr, LICSW, our first behavioral health clinician here at MVPediatrics, will be retiring at the end of June. She helped us integrate behavioral health into our practice, for which we are eternally grateful. We wish Debby the best as she takes time to travel and spend time with her family.

We thank you for the continued opportunity to care for your family!
